KEYNOTE ADDRESS

Andrew Stephenson
Vice President,
Health By Design International

Before the Claim: Factors that Drive Injuries and How We Can Better Address Them

Workplace culture, employee health, and mental health all influence injury and claim outcomes, but efforts to address these workforce issues are too often reactive and siloed. We'll share experience and lessons learned from a 20-year journey towards less wastage in overlaps, closing gaps, and better understanding integration for a more optimized approach to cohesively managing workforce health and injury costs.

- Better understand specific links between health, injury risks, and costs
- Learn steps towards leveraging and integrating workers' comp management strategies with health and well-being initiatives
