KEYNOTE ADDRESS

DR. HOWARD WALL

Labor Market Outlook for the United States and Chattanooga

Join us for an insightful discussion on the current state of the U.S. economy, with a particular focus on labor market conditions and emerging trends. The presentation will also explore the economic outlook for Tennessee and Chattanooga, which have remained relatively flat over the past two years amid broader national developments. The discussion will consider how the national economic outlook may shape our local economy, along with federal policy options—including Federal Reserve policy—that could influence future growth. Ample time will be reserved for questions, giving attendees the opportunity to dive deeper into the topics presented or ask about any economics-related issue they're curious about.
